INSTALLING  
RELIABILITY

- X** Meet our Experts and benefit from our decades of Know-How
- X** Enjoy our Innovative Solutions in Secure Satellite Communications
- X** Discover our New Product Highlights

## SatCom-On-The-Move

The SatCom-On-The-Move Solution (SOTM) by ND SATCOM saves time and money while maximizing ease of use. You can transmit video at very high speed from the get go, even if you have no cellular network or microwave connectivity.

## Tactical Communications

In military environments usable products by ND SATCOM inclusive SOTM are suitable solutions for your critical communication tasks. You benefit from our decades of Know-How as system integrator in tactical communication and Integrated Logistics Support (ILS) during the entire period of use.

## SKYWAN Technology - Comprehensive Security in Satellite Communications

Benefit from our secure, resilient and flexible networks in all areas.

# INVITATION | FACTORY EVENT

INSTALLING  
RELIABILITY

We have prepared a varied program with many highlights. With us, you will learn a lot, but you can also experience a lot. The day will end with the ND SATCOM summer party. Enjoy the music and catering in a relaxed atmosphere and use the time to talk to our experts.

As you can see, there are plenty of good reasons to visit us.

As a valued customer and partner, you have early registration access. Space is limited.

Click this link to register now:
