ND SATCOM

SKYWAN 7000 / 1070 Training Services

Course Overview

ND SatCom training is the most efficient way to get a full comprehension of ND SatCom products and solutions. ND SatCom offers training in various areas such as installations, operations and management of our products.

The professional courses cover all relevant topics for SKYWAN satellite networks:

Level	SKYWAN Network Design & Engineering	SKYWAN Network Commissioning & Operation	SKYWAN Station Commissioning, Installation & Maintenance
Entry	Satellite Communication Fundamentals (VSAT) Course no 8000 – 2 days		
Basic	Course no 8340 3 days	Course no 8240 5 days	Course no 8140 1 day
Expert	Course no 8350 3 days	Course no 8250 4 days	Course no 8150 2 days

Convenient classroom training is available all year-round at our training center in Friedrichshafen. We also offer classroom trainings on request at our regional branches or at customer premises.

Optional Course Modules

For certain solutions e.g with FAD voice multiplexers or flyaway antennas, dedicated courses are available:

Configuration of SKYWAN FAD Basic Level (course No 8243 – 2 days)	Installation Basics (VSAT Station) Basic Level (course no 8010 - 1 day)
--	--

Also available are consulting services for SKYWAN satellite networks.
